Office Action Summary	Application No. 10/743,752	Applicant(s) ROSEN, ERIC B.	
	Examiner Edward M. Johnson	Art Unit 1793	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kroll et al. US 4,594,081.

Kroll '081 discloses a method for cleaning a gas stream comprising adding water to the gas stream and condensing at different locations (see abstract and columns 2-3).

Kroll '081 fails to disclose continuous adding and condensing.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to continuously add and condense in the method of Kroll because Kroll discloses continuously neutralizing the water scrubbing agent (column 5, lines 46-47).

Regarding claims 2-8, although apparatus limitations are not unduly weighted in method claims, Kroll '081, in any case,

Art Unit: 1793

discloses nozzles and a scrubber (see abstract and column 1, lines 17-24).

Regarding claims 9-12, Kroll '081 discloses a fan and blower (see column 5, lines 31-45 and column 7).

Response to Arguments

3. Applicant's arguments filed 10/15/07 have been fully considered but they are not persuasive.

It is argued that it is respectfully submitted that it is not obvious... at the humidification stage. It is noted that the features upon which applicant relies (i.e., removal of "all" of the moisture, removing "more moisture than was added", etc.) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened

Art Unit: 1793

statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
